OBJECTIVE

MCA student and aspiring Graphic Designer with hands-on Figma and front-end experience. Worked as a freelance designer creating engaging social media posts using Figma and Canva with a focus on visual design, layouts, typography, colors, and creative elements. Focused on building clear, user-friendly designs, and looking for a role where I can grow my design skills and contribute to better user experiences.

EDUCATION

Master of Computer Applications (MCA) **2025 - 2027**
Bharati Vidyapeeth Institute of Management and Information Technology, Mumbai University

Bachelor of Computer Application (BCA) **2021 – 2024**
Nagpur University
CGPA: 8.00

Higher Secondary (Science) **2020 - 2021**
Maharashtra State Board
Percentage: 82.33%

Secondary School **2018 - 2019**
Central Board of Secondary Education
CGPA: 7.5%

TECHNICAL SKILLS

- **Design & Prototyping:** Figma, Canva, Wireframing, Prototyping, Visual Design, Typography & Color, Responsive / Mobile-First Design.
- **UX Methods:** User Flows, Persona-Based Design, Information Architecture, Usability Principles, Accessibility Basics.
- **Front-End Development:** React.js, Tailwind CSS, HTML, CSS, REST APIs, Responsive Web Design.
- **Programming & Databases:** Java, Python, SQL, PostgreSQL, OOP, Data Structures & Algorithms.
- **Tools:** Git, GitHub, Vercel, VS Code, Cursor, Antigravity.
- **Graphic Design:** Adobe Photoshop, Illustrator, InDesign, Premiere Pro, Typography, Colour Theory, Layout, Brand Consistency, Banners, Posters, Brochures, Social Media Posts, AI Design Tools.

EXPERIENCE

Figma Designer Assistant | Freelance Experience

- Assisted a freelancer in creating Instagram posts and social media designs using Figma.
- Worked on basic visual layouts, text placement, and design elements to create attractive and engaging posts.
- Gained practical experience with Figma and developed a basic understanding of UI design and visual communication.

PROJECTS

Ambulance Booking System : https://github.com/Prernadikondwar/Ambulancebooking-System
Designed and built an emergency-response experience focused on speed and clarity under stress. Created user flows and interfaces for patients and drivers, featuring GPS-based ambulance assignment, live driver tracking on a map, and OTP-verified pickup, implemented with React (Vite) and Flask. **(April 2026 – Ongoing)**

NexTalk-A Multilingual Video Conferencing Platform : https://github.com/Prernadikondwar/Nextalk
Designed an inclusive video-conferencing interface that lets people speaking different languages communicate naturally, using real-time translated audio and live captions to improve accessibility. Focused on a clean call layout and simple controls built with web technologies. **(Dec 2025- Jan 2026)**

Rural Health Connect : https://github.com/Prernadikondwar/rural-health-connect
Designed and built a three-portal healthcare experience (Patient, PHC Hub, Doctor) in a 24-hour hackathon, mapping each user's journey for registration, AI-based monitoring, teleconsultation, and digital prescriptions. Prioritized simple, accessible interfaces for rural users with React.js. **(April 2026)**

WORKSHOP & SEMINARS

- Attended a seminar on **Cybersecurity**, gaining insights into modern security challenges and practices.
- Participated in a seminar on "**Turning AI Models into Real-World Applications**", understanding practical implementation of AI solutions.

CERTIFICATIONS

- **NPTEL-** Cloud Computing **(June 2026).**
- **Coursera** – Python Data Structures **(March 2023).**
- **Cognizant** – Artificial Intelligence Virtual Experience Program **(Jan 2023).**
- **Open Weaver** – Introduction to Programming Using HTML and CSS **(Apr 2023).**

ACHIEVEMENTS

- Participated as an Open Source Contributor in the **GirlScript Summer of Code (GSSOC 2023),** collaborating with developers on real-world projects, resolving issues, and improving functionality using Git and GitHub — experience in teamwork, feedback, and iteration.
- Participated in the International **UAi Hackathon 2026** at Universal AI University, where my team built "**Rural-Health-Connect**" — an AI-powered rural telehealth solution. Designed the user flows and interfaces across three portals to make healthcare more accessible in underserved communities.
- Received a Certificate of Appreciation for serving as a Student Volunteer at **ICET 2026 (International Conference on Emerging Trends)**, organized by Bharati Vidyapeeth's Institute of Management and Information Technology. Recognized for active participation, event coordination, teamwork, and contribution to the successful execution of the conference held on 10th–11th April 2026.

EXTRACURRICULAR ACTIVITIES

- Received Certificate of Appreciation from **QUASTECH** for exceptional contribution and dedicated support during the **Job Fair** at Bharati Vidyapeeth Institute of Management & Information Technology.
- Led the cultural team and technical event during the college event "**MANTHAN**" and coordinated activities for the singing competition.
